ICONS

 new product in catalogue	 refill colour
 possibility of making impressive rotational engraving GR 360°	 suggested screen size of a laptop that fits the bag
 device equipped with an induction charger	 material doesn't contain harmful bisphenol A
 product made in the European Union	 device uses wireless connection in Bluetooth technology
 product covered with soft touch, rubberized coating	 information about batteries, which are required to make product work, but are not included

ICONS FOR TRAVEL MUGS AND VACUUM

 shouldn't leak	 minor leaks while heavily shaken	 leaks may occur
 >12h 40°C	>12h - approximate values, measured from initial temperature 100°C to final temperature 40°C. During this period the mug wasn't opened, measurements were made in room temperature.	

LEGEND

GREEN ICONS

Environmentally friendly – products wholly or partially (min. 50%) made of natural materials. We also use this icon to mark products powered by solar energy and promoting ecological lifestyle.

Replacement of single-use – products which constitute alternatives to single-use products. Thanks to their reusability, they do not create a demand for new products, and thus reduce the consumption of resources and energy needed for their production.

Eco-friendly packaging – Collective or single-layer individual ones, plastic-free cardboard packaging enabling easy waste separation.

rPET – products made from recycled plastic bottles.

RPET RECYCLED PLASTIC

What is rPET?

rPET is simply PET material that has been recycled. This raw material is suitable for continuous recovery, thanks to which it is possible to reduce CO₂ emissions by up to 40%. How much rPET will be produced depends entirely on us and on the correct segregation of waste.

CLEANING

After removing the labels and any other unwanted remnants, the bottles are cut into flakes and then thoroughly washed.

GRANULES

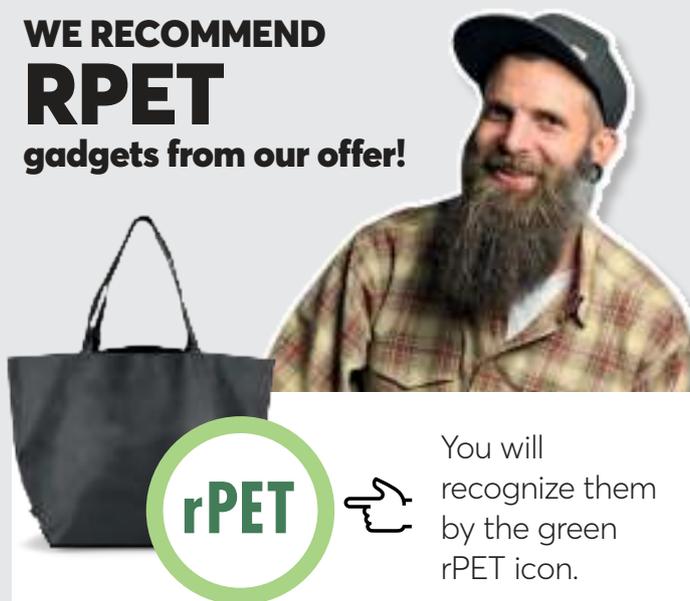

After drying and heating, the material is pressed into long tubes. The resulting threads are cut into small elements, the so-called granules that undergo rigorous safety and quality tests.

NEW LIFE

Thoroughly tested granulate is delivered to companies that manufacture new products from it. Not only clothes or bottles, but also promotional gifts.

RPET CYCLE

WE RECOMMEND

FANTASTIC 5

BLUE COLLECTION

1 YEAR!

DO YOU KNOW WHY WE CELEBRATE OUR FIRST BIRTHDAY?

F5 or Fantastic5 is a series in which we present you completely new gifts that have never been shown before, at the beginning of each month.

In November 2020, the first fantastic five had its premiere! What does this mean for you? Nothing else but the fact that as many as **70 new products** have been added to the Blue Collection offer during the year. And that's not our last word!

With the introduction of **Fantastic5**, we promised you that every month you can count on unique products and we will keep our word. You can find out about it by watching the films promoting gifts from the F5 series. You can find them all on our YouTube channel.

See you at the next Fantastic F5 launch!

Follow us and stay up to date!

TOP 5 of F5

As you already know, the Blue Collection offers 5 brand new products every month. It would be difficult to show them all to you here, so we chose the ones that met with the greatest interest. You could say that they are the *crème de la crème* of our fantastic Fridays, although choosing them was not easy for us!

TECHNO

Because of big digits the current time can be easily read and the whole clock gains trendy look.

Did you know...

At the beginning of the 18th century, the Swedish naturalist Carl Linnaeus planted the first flower clock in the Botanical Garden in Uppsala, Sweden. He created a round flower bed divided into 12 parts. The whole thing was based on the characteristic hours of opening and closing of petals for different types of flowers, so you could determine the time of day just by looking at the garden. If you do not have this type of garden, wall clocks also work well.

0,22 €

The PINKO ball pen is different from standard ballpoint pens: its casing made of rolled-up recyclable paper evokes the idea of an ecological lifestyle. It is also available in a wide range of colours, which we consider to be another advantage.

Plastic pens are an effective and inexpensive way to advertise a brand or institution. The surface of the plastic allows for a very precise multi-colour printing and makes the logo or inscription look exceptionally attractive. This useful gadget can be found in our collection in many varieties and in a wide range of colours. Transparent, matt, with logo on the clip or body - there's plenty to choose from.

Did you know...

Popular so-called 'the yellow cards' were created in the 3M laboratory by accident. During research works on a new formula of a super-strong glue - to a great surprise - the super-weak glue was created. Only after several years, one of the company's employees figured out how to make use of it. There are many possibilities of their use. Who among us has not used them for a more or less picky joke?

CREATE YOUR OWN INDIVIDUAL PROMOTIONAL SET!

Compose a unique set by choosing the products and box yourself.

YOU HAVE 3 OPTIONS:

1. Match the products to the ready-made forms - next to the boxes you will find our hints.
2. Tell us what products you want to put in the box, and we will cut the foam for you accordingly.
3. If you prefer paper filling instead of foam filling, choose one of new boxes and match them with gifts of your choosing.

02020, 20218, 20219, 20218Z:
The packaging made of cardboard is filled with polyurethane foam.

1 OPTION

Match the products to the prepared formats.

17674-14
(notebook A5)

Also matches:
17545, 17674,
17696

19580-00

2

OPTION

The ability to create
your own set.

*

STEP BY STEP

1 You choose products.

2 Our laser cuts the selected foam to the right shape.

3 Then, treated foam is placed in a box.

4 We assemble your products and adjust them to the shapes cut in the foam.

*Sample set with products - boxes don't include accessories.
The price applies only to the box and does not include the cut-out price of the foam.

3 OPTION

The ability to create your own set.

Did You know...

The first evidence of yoga practice dates back to 2300-1500 B.C.E. And until 1937, women could not legally learn it. Sounds incredible, doesn't it? Today there are over 100 different styles of yoga. It is considered an effective way to maintain the harmony of body and spirit and to fight depression.

**Beeswax candle
set HANNI**

145 x 67 x 55 mm

beeswax, paper

pad printing N2

6,47 €

Did You know...

The first candles were used at least 3,000 years ago. They were mainly used for religious ceremonies. Later, they were also used as a method of measuring time - the simplest method was to stick a piece of metal into the candle. As the wax around it melted, the metal falling on the plates signaled the passing of time.

MADE OF PAPER

It is not the best idea to wash paper. Surely, you know that. But what you probably do not know is that our paper bags are not afraid of getting wet. With synthetic latex impregnation, the cellulose that is used to manufacture them does not lose its properties even after laundering. The material which our bags and backpacks are sewn of is often referred to as leather for vegans because its production does not require the use of any ingredients of animal origin.

MADE *OF* PAPER

Ecological gadgets are experiencing a golden era. The DAIMA paper bag fits perfectly into this trend. It is distinguished with its original appearance, usefulness and, above all, with the fact that it is environmentally friendly.

DAIMA

Bags and Umbrellas

In order to take care of the environment it is best to start by making changes in everyday life. Take a woven, reusable bag for shopping instead of a plastic bag. When not used it takes up very little space, and after packing your shopping, it turns out to be very capacious.

Did You know...

Originally, umbrellas were only used for protection from the sun or to cover the eyes from drastic scenes during gladiatorial fights in Rome. They became popular all over Europe in the 16th century, when Louis XIV used them to protect his precious wigs. The first umbrella shop was opened in London in 1830. Nobody expected that they would become one of the most popular promotional gifts.

The color of the print changes under the influence of water thanks to the use of hydro-chromatic inks. One of the most interesting uses of this feature are paintings made by South Korean designers. The project is called „Monsoon Projekt“ - from the monsoon season. The falling rain reveals the paintings made on the streets and promenades. Be sure to check it out!

Did You know...

When Sylvan Goldman, owner of a supermarket chain in Oklahoma City, created the world's first shopping trolley in 1937, the response from women was, to put it mildly, unfavorable. They thought they looked ridiculous when they walked around the shopping with the cart. Goldman, convinced of the success of his invention, hired models to use trolleys in stores. As a result, they quickly gained popularity, and Goldman became a multi-millionaire.

MILO

Did You know...

Have you ever wondered how many teeth do the bottle caps have? Their number is regulated by the German standard DIN6099, according to which the optimal cap, adapted to the circumference of the neck of the bottle, is one with exactly 21 teeth. There are of course exceptions to every rule - some Belgian beers have 22-tooth caps. If the cap on your bottle has 24 or even 29 teeth - you don't need an opener - it's a twist-off cap for sure.

Did You know...

In 2011, company named Zweibruder Optoelectronics set a new Guinness World Record at the world-famous Solingen Festival of Lights in Germany . It presented the largest flashlight in history, measuring as much as 4 meters. The LED bulbs placed in it can last up to 100,000 hours, which translates into about 11 years of uninterrupted light. The main goal, apart from breaking the record of course, was to draw attention to the problem of energy saving.

Tools and Reflectives

RUBBY lamp is an irreplaceable gadget for travellers and athletes. Its biggest advantage is the variety of applications. You decide how and where to fix it with a special rubber band. It has four operation modes: white constant, strong and weaker, red constant or flashing. It will also work well as a bicycle lamp.

The torch has a screwdriver with four bits and a silicone grip.

TIMES

Did You know...

The inspiration for the invention of reflectives were ... the eyes of a cat. One night, Percy Shaw noticed the lights of his car reflected in the eyes of a cat by the road. He realized that thanks to this he did not go down into the ditch and avoided an accident. Thanks to this event, in 1934 he patented his invention called the 'cat's eye'.
